Dear Tech Row Invitee,

On behalf of FIRST Robotics Society we would like to invite you to be an exhibitor at the *FIRST*[®] Robotics Competition Canadian Rockies Regional April 6 – 7, 2018 in Calgary at the Genesis Centre, 7555 Falconridge Blvd NE from 9:00am to 4:00pm.

FIRST[®] Robotics Competition (FRC) is an international high school robotics competition. Each year, teams of high school students, coaches, and mentors work during a six-week period to build game-playing robots that weigh up to 120 pounds (54 kg). Robots complete tasks such as scoring balls and flying disks into goals, inner tubes onto racks, climbing and hanging on bars, and balancing robots on balance beams. The game changes yearly, keeping the excitement fresh. This year the game is called *FIRST*[®] POWER UPSM

FRC is part of the *FIRST*[®] family of programs that gives students the opportunity to participate in robotics from elementary until high school. *FIRST*[®] was started by the inventor of the Segway, Dean Kamen, to inspire and encourage students in the STEM fields (science, technology, engineering and math).

To confirm your attendance or receive more information, please contact us at exhibitors@frcwest.com

START NEW GAME

FIRST Robotics Society is an official *FIRST*[®] partner organization dedicated to promoting and supporting *FIRST*[®] programs at all levels throughout Saskatchewan, Alberta and British Columbia.

We are offering booth space during the high volume traffic days of April 6 & 7 (9am-4pm) at \$50/day*. Our goal with the Technology Row exhibitor area is to showcase like-minded organizations to help inform and educate our student participants and attendees about STEM related companies, new initiatives, activities and educational opportunities in our region.

* Note: Proceeds for Tech Row will go to growing our FRS Scholarship Fund.
